Thank you so much!

Extra special thanks to Marty and Eric and the team behind the curtain.

Terry,

Please share this with the HQs EOC:

I am taking back the following message. Speaking for the data management
teams in Regions 6, 8 and 9, we are proud to say that we will meet our
commitment to HQs even after taking on the added workload.

We have a thoroughly amazing crew that is busting there tails and working
long hours to meet the changing data management demands and priorities of
this Site.

I personally hope that their continuous efforts will somehow help us
overcome the public stigma that EPA can't get data out.

Terry,

Please share thus info with the HQs EOC:

We will be delayed in getting you data at 7am tomorrow. We've had to
redirect resources to making changes to the deliverables that are
required for public consumption.

My Team needs sleep. I will send you an updated delivery time as soon as I can. The R6 and R9 data is in pretty good shape but we still need to go through some of the validation reports for R8.

M
